EDUCATION

Institute of Engineering and Technology, DAVV
Bachelor of Engineering in Information Technology

Indore, MP
2023 - 2027

SKILLS

- **Languages:** C++, Java, JavaScript, HTML, CSS, SQL
- **Technologies:** MySQL, React.js, SpringBoot, Spring Security, Spring Data JPA

PROJECTS

Vroomy

March 2026

- Vehicle rental application with users being offered the option to book two wheelers and four wheelers for rent.
- Backend implements production features like Spring Security, JWT, global exception handling, database connectivity, JPA mappings, and pagination among others.
- Users have the privilege of creating an account and logging in and out of it as per their wish and viewing their rentals while logged in.
- Frontend developed with React + Vite, backend with Spring Boot and MySQL for database support.

StellarScan

July 2025

- Built a full-stack satellite tracking web application using publicly available TLE data.
- Features include satellite information, real-time three-dimensional position display relative to user-provided geographic coordinates, satellite selection, and a sleek UI with animations.
- Optimized the flow of data between frontend and backend to support effective rendering of satellite metadata, orbital parameters, as well as position information.
- Frontend built using React and deployed on Netlify, with a Spring backend handling orbital computations.

Ducati Homepage Clone

March 2025

- Cloned the official Ducati homepage with a clean, interactive layout, closely replicating the original design and user experience.
- Developed individual bike detail pages with structured content, smooth navigation, and consistent styling.
- Made with HTML, CSS, and JavaScript.

PROGRAMMING AND COMPETITIONS

WebSprint Hackathon – GDG On Campus

April 2025

- Rebuilt the GDG website UI from scratch using HTML, CSS, and JavaScript.
- Focused on clean layout, responsiveness, and interactive design.

Infosys HackWithInfy

March 2026

- Successfully reached the interview round for the role of Specialist Programmer L3.

Coding practice

Ongoing

- I have solved a wide variety of programming problems from various topics of data structures and algorithms like queue, stack, dynamic programming, hashmap, to name a few. I currently have a rating of 1654 on Leetcode.
